

In-line automatic tiller

Filler for all liquid products
Filling range from 50 ml to 30 litres

- ▶ Upgradable filling machine according to speed requirements (from 2 to 10 heads)
- ▶ Flowmeter dosing technology: volumetric, mass or magnetic
- ▶ Quick format chageover without tools
- ▶ Dosing accuracy and easy maintenance
- ▶ Automate controlled - 7" or 10" color touch screen
- ▶ Flexible with a filling range from 50 ml to 30 l on the same machine

Agroalimentaire

Chimie-Détergence

Pharma-Cosmétique

Features

Flowmeter dosing technology assures flexibility of use from 50 ml up to 30 litres in standard conception.

For optimal packaging, we master three types of flowmeters depending on nature of the product to fill.

All our filling machines are equipped with buffer tank to ensure better dosing quality.

We offer a variety of options and finishing to best meet your production specifications represented by our two models of in-line automatic filling machines :

► Standard automatic filler

Upgradable from 2 to 10 filling heads
Automate controlled - 7" touch screen

► Premium automatic filler

Upgradable from 2 to 10 filling heads
Industrial computer controlled - 10" touch screen
Machine cleaning-in-place
Statistical production datas by usb key

Nos technologies de dosage :

Volumetric flowmeter
Accuracy +/- 0.5 %

Electromagnetic flowmeter
Accuracy +/- 0.3 %

Mass flowmeter
Accuracy +/- 0.2 %

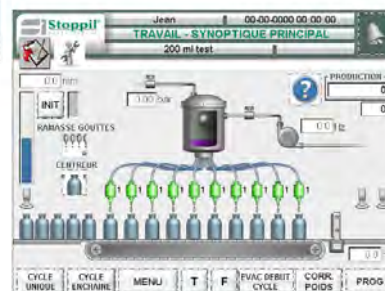

► Pharma-Cosmetic finishing

► ATEX certified conception

► Stainless steel compatible

version for corrosive products
